Installation of the CIS Computer Interview System

- The CIS Computer Interview System must be installed before CIS interview projects (questionnaire) can be installed and run.

1. Installation of the CIS Computer Interview System

If you have received the installation file by E-Mail

Copy the file to a folder of your choice on your computer. If you want to install the CIS Computer Interview System on mobile interview computers, copy the file to a data medium (USB stick, zip disc)

Start "CISsetup_8.5.xxx_(Build yyy).msi" by double-clicking File Explorer.

Follow the installation instructions.

If you have received the installation file on a data medium (CD-ROM, USB stick, disc)

Open the data medium using File Explorer (if it does not open automatically).

Start "CISsetup_8.5.xxx_(Build yyy).msi" by double-clicking File Explorer.

Follow the installation instructions.

Close all Windows programs (Fig. 1).

Fig. 1

Set the installations referring CIS program updates and internet connections (Fig. 2).

Select if the program updates provided by IfaD automatically shall be installed when starting CIS program the next time.

Define the proxy settings if a proxy is used for the internet connections.

🛃 CISstart Setup	×
CIS Updates Select program update and network settings.	cis
Automatically download CIS program updates Use proxy for internet connections Proxy address:	Port:
